

# Transform 285/400:

## Lane Modifications on Peachtree Dunwoody Road Under I-285

### Peachtree Dunwoody Road Under I-285

**Who:** Transform 285/400 project  
**What:** Shifting lanes for construction activities  
**Where:** Peachtree Dunwoody Road under I-285  
**When:** October 2018  
**Why:** To create space for new bridges to be constructed on I-285 over Peachtree Dunwoody Road

### Long Term Lane Configuration: All Weekdays, Weeknights, and Weekends

The existing roadway will convert to two southbound lanes, one southbound left turn lane and one northbound lane.

The existing sidewalk will be shifted inside the bridge column, with barriers separating the relocated sidewalk from traffic and construction activities.

The construction activities will begin with removal of the existing concrete median, paving, and restriping the roadway.

The modified lane configuration will remain in place through the utility relocations and bridge construction.

Pedestrian access will be maintained throughout construction activities.
